

Assignment 1

Linux and C Programming (62558)

Mads Richardt (s224948)

December 3, 2022

Feedback

1. Fine, and nice that you use the Alice and Bob analogy but normally the actor trying to get unauthorized access is called Eve.
2. Fine
3. Fine solution consider setting the GID
4. Maybe also test read and write permissions
5. Fine answer but what about the “t” in the permissions?
